

The **Compliance Manager™** is a web-based tool specifically designed for Pipeline Companies to assist them in the management of regulatory and compliance responsibilities for public awareness. It enables companies to construct a schedule or plan for delivery of public awareness messages to specific population segments, then track the communication events performed that fulfill the defined schedule. The events will often be representative of communication via some form of media, but could represent any form of communication with an audience.

Features include:

- Define messages to be communicated as a part of a public awareness plan
- Manage communication by audience types and languages
- Track baseline and supplemental message communication
- Specify frequency of message communication
- Provides a geographic representation of public awareness efforts. Represent communication by zip code, city, county, designated marketing area, carrier route, school districts, company boundaries, or virtually any custom geography
- Store artifacts specific to the communication message, such as documents, PDF files, spreadsheets, images, audio or video files
- View message communication on a map in relation to relevant information such as highways, waterways, townships, sections, company assets and facilities, pipeline centerlines, buffer zones, dispatch centers, etc.
- Notification of upcoming public awareness messages that are “due” and must be communicated
- Sophisticated audit reporting tools

The screenshot displays the Compliance Manager web application. On the left, a map shows various geographic areas with different colors and labels. On the right, a report titled 'Events Due by 07/02/2008' is shown. The report includes a table with columns for Days Until Due, Company, Responsible Department, Target Audience, Frequency, Location Type, Locations, Languages, Message Types, Earliest Due Date, and Program Details.

Days Until Due	Company	Responsible Department	Target Audience	Frequency	Location Type	Locations	Languages	Message Types	Earliest Due Date	Program Details
335	Demo Division B	Safety and Emergency Services	Emergency Officials	Annual	School District	<ul style="list-style-type: none"> Arcadia Unified Compton Unified Alhambra Unified Compton Unified ROP Culver City Unified Centinela Valley Union High Beverly Hills Unified 	<ul style="list-style-type: none"> English 	<ul style="list-style-type: none"> Awareness of Hazards & Prevention Measures Taken 	06/01/2008	

Give your organization the ability to **plan, manage and audit** your public awareness program with the **Compliance Manager™!**
